

VALUATION REPORT

RICHARD MILLE RM016 WATCH

Date of purchase: 11/04/2025

Editor's Notes:

Unique in style - this Richard Mille RM016 watch showcases a rectangular titanium and DLC case first launched in 2007. Regardless of the distinguishable shape, the case continues to feature iconic characteristics true to the collection: the free-sprung balance with variable inertia, ensuring better durability with every shock, a double-barrel system that helps improve torque stability over a longer time, and the spline screws in grade 5 titanium unaffected by physical manipulation. Each case comprises 202 separate machining operations.

With only 15 created, the RM016 watch is a limited edition piece - it takes the team over 18 days and 400 hours before production even commences. Impressive and distinct, the RM016 watch is a fan favorite. The caseback allows for a full view of the movement, a work of art in its own nature, and another amazing way to admire its inner workings. Lightweight and understated, yet versatile it will fit right into any watch collection.

Includes service box.

Buckle: The fit of this watch can be made larger or smaller by adjusting the buckle.

Aesthetic Condition: Grade 1

Timekeeping: This watch currently meets expected timekeeping standards.
